

CHOOSE YOUR TEAM, CONTROL THE BATTLE!

The ultimate Striker Battle is about to begin...it's time to choose your team and be part of the battle!

The second generation of METAL XS is being unleashed at the end of July and this time the Strikers are better than ever before! What's more, each Battle Striker represents a mythical StrikerSoul from one of three teams: **Paladin**, **Predator**, and **Phantom**. All three teams have special skills for beating their rivals, but which one will win! Choose your team, collect them all, and build the ultimate army of Strikers.

6 unique **METAL XS Reload Strikers** including Asleon (Predator), Valkyria (Paladin) & Diablaze (Phantom) are precision engineered with awesome new parts & 360 degrees of detail. The coat of heavy, durable metal armour creates an intense clashing sound during battle but also ensures Strikers can spin and battle for longer at a speed of 6000RPM. Controlled by an enhanced, slimmer, light weight Turbo Boost Launcher styled for each team for greater accuracy during battle...you will have to use your stamina and skill as you take on your friends in the most testing battle yet!

Don't forget about our 3 New **MECHA FX Strikers** too. Talanthor (Predator), Dragun (Phantom) & Masumai (Paladin) bring more control to the battle adding strategy, challenge and stunts. The unique controller-activated trigger system allows you to activate special moves within your Strikers for the upper hand in battle! Launch a powerful upper-cut attack, activate tip-switch to transform into Super Attack mode or activate the powerful Gyro-FX force field to outlast your opponent!

What's more, ALL components of METAL XS & MECHA FX Strikers are compatible with Battle Strikers Series 1 & 2 so you can combine them to make the perfect Striker. The more Strikers you have the more powerful your team will become.

Look out for the 3 new **Team Starter Sets** or launch your battles with the **Ultimate Battle Tournament Set** that includes a new and enhanced battle arena with a high-speed spinning centre and three interchangeable face-plates for Attack, Defense and Control obstacles, two limited edition METAL XS Strikers from the Predator and Phantom teams, two DLX Controllers, and two unique Turbo Boost Launchers

Not only do you get the game play experience, there's also a whole online world of Battle Strikers where you can build virtual tops and play the online game if you visit... www.battlestrikers.com! Don't forget to check out the UNOFFICIAL Battle Striker Blog where you can create your own blog and talk to friends on forum pages...check it out at www.strikeraxis.com! You control the battle -- and the world!

~Ends~
